1. Prepare the nail plate, degrease. Apply a thin layer of the E.M Lac base. Cure for 30 sec in a LED/CCFL lamp or for 2 min in a UV lamp.

2. Apply the camouflaging E.M Lac Base Gel in 1-2 layers. Cure for 2 min in any lamp.

3. Draw a smile line using E.M Lac #001-01 White Lotus. Cure for 30 sec in a LED/ CCFL lamp or for 2 min in a UV lamp.

4. Apply E.M Lac Top Gel. Cure for 30 sec in a LED/CCFL lamp or for 2 min in a UV lamp. Degrease.

Seafoama

BASE AND TOP GEL-POLISH

nails while also strengthening

- · improves adhesion with your · sculpting properties that can hide any nail plate irregularities and make the coating flawless;
 - · medium viscosity for easy nail modelling that also strengthens the nails when coating them with gel polish.

Sculpt-Maxi Base Gel

- · sculpting properties allow to model the nail into a perfect shape:
- · thick, elastic base gel perfectly levels out flat. caved-in, or otherwise deformed nail plate;
- · extra-strength with perfect shape.

Top Gel

- · protect a design made · with E.M Lac: ultra alossy shine, lastina up to 3 weeks;
- reliable protection, extra firmness, colour fading prevention.

- elastic, non-stick top coat gel for gel polishes: does not crack and remains smooth and shiny:
- used for creating nail art with PRINCOT, TEXTONE or GLOS-SEMI on gel polish.

and elongating your natural

Polish Remover within 10-15

· easily soluble in E.M Gel

nail plate:

Slider Top Gel

- · reliably seals the slider on the nail plate:
- · gives your nails glossy, crystal shine that will not fade or turn yellow with wear.

Matt Top Gel

- · A UNIQUE MATT SOFT TOUCH
- · visual and tactile velour effect;
- · matte effect lasting up to 3 weeks.

Velur Matt Top Gel

- · turn your nails into velour - beautiful to the eye, soft
- and velvety to the touch. · the effect lasts up to three weeks; we
- recommend using this top gel with darker shades.

Easy Soak Off Base Gel

Easily removable base coat for use with gel polish:

- · doesn't overload the nail plate, doesn't damage the nails during removal;
- · easily removable, allowing for faster change of coat; · perfectly suitable for

Easy Soak Off Top Gel

Easily removable protective coating for use with gel polish:

- ·allows for guick and gentle polish removal: protects the nail polish
- from scratches, chips and sun while adding extra strength and shine.

Nail Polymer Booster

- · penetrates into the nail plate's deep layers and facilitates moisturizing, nourishing, and thickening of the nail plate;
- · crosslinks forming a cage and securely locks the oils inside the nail, creating a protection film;
- Avocado and Jojoba oils contribute to a deep rege neration, growth and strengthening of the nail plate

Nail Strengthener Natural Force

- · natural plasticizer improves the flexibility of nails and forms a protective waterrepellent layer;
- · resin pistachio oil promotes deep regeneration of the nail plate;
- · rose stem cells slow the aging process;

Antifungal

- recommended for preventing fungal diseases in case of onycholysis
- · it stimulates the growth of the weakened and damaged nails, prevents nails delamination, recovers and strengthens the nails.

ADDITIONAL MATERIALS

Cuticle Oil Aqua Dream

- · gently moisturizes the nail cuticle, slowing down its growth, while also strengthening the nail plate, making it healthier;
- · the emerald colour creates an image of the sea, waves and warm sun of an exotic island.

Cuticle Oil Glamour Look

- · gently moisturizes the nail cuticle, slowing down its growth, and strengthens the nail plate, making it healthier;
- · pleasant violet shade brings out the femininity and grace.

Cuticle Oil Barbie Girl

- · gently moisturizes the nail cuticle, slowing down its growth, and strengthens the nail plate, making it healthier:
- · pleasant pink shade with a Barbie Girl fragrance.

Protect Oil

Antiseptic and antifungal pedicure oil:

- · 100% protection against fungal infection and bacteria;
- · nourishes and protects the client's nails and skin and helps them recover.

Cuticle Remover

- · gently removes rough skin;
- · suitable for all types of manicure;
- · semitransparent, with a pleasant frangrance.

Nail Prep Aid

- · completely removes any excessive humidity and naturally occuring oils to ensure better adhésion;
- · only penetrates the outer layers of a nail plate, preserving the nail's natural structure and thickness.

Ultrabond

- · primer ensuring adhesion bet-ween the artificial coat and the nail plate, designed for use with gel, acrylic and soak-off systems;
- · does not contain metacrylic acid, fragrance-free;
- enhances the coat's durabi-lity when used on the free edge of the nail.

CLEANING PRODUCTS

NAIL PREPAID

- · completely removes any excessive humidity and naturally occuring oils to ensure better adhesion:
- · only penetrates the outer layers of the nail plate, preserving the nail's natural structure and thickness

PRIMER AND BASE GEL

ULTRABOND

A primer to ensure adhesion between the artificial coat and the nail plate, designed for use with GEL, ACRYLIC AND

- · does not contain metacrylic acid, fragrance-free;
- · enhances adhesion of artificial lavers when used on natural nails.

SUPER BOND GEL

Acid-free base gel with enhanced adhesion formula:

- · best applied to prepared natural nails to ensure stronger adhesion between the sculpting gel and the nail plate:
- good for weak, soft nails with tendency to split;
- · fast polymerization and thin dispersion allow for easy and precise modelling. LED/CCFL lamp - 30 sec. UV - 1 min.

SCULPTURE GELS

EASY ONE GEL

Single-phase transparent sculpting 3 in 1 gel (base, sculpting, top coat):

- · elastic and flexible, easy to work with:
- · great shine;
- · fixates foil or PRINCOT perfectly when used as a top coat.

LED/CCFL lamp - 1 min, UV lamp - 2 min.

Single-phase camouflaging sculpting gel:

- · elastic and flexible, easy to work with:
- · perfectly covers the free edge of the nail at a minimal thickness, doesn't leave a line when arowing out
- tender pink colour. LED/CCFL lamp - 1 min. UV lamp - 2 min.

SOFT NUDE GEL

- Single-phase camouflaging sculpting gel:
- · elastic and flexible, easy to work with;
- · 100 % self-modelling, re-
- perfectly covers the free edge of the nail at a minimal thickness, doesn't leave a line when growing out comes in a natural nude colour. LED/CCFL lamp - 1 min.

UV lamp - 2 min.

SOFT MILK GEL

- One-phase sculpting camouflage gel:
- · elastic, flexible, easy to work with;
- perfectly covers the free-edge line at the minimum height, does not leave a bor-der line when growing out;
- · an elegant milky shade is perfect for a Baby Boomer French fade manicure:

LED/CCFL lamp - 1 min. UV lamp - 2 min.

MONOPHASE LED GEL

Universal sculpting monophase LED gel: great on tips, on forms and on natural nails:

- 100 % self-sculpting, requires slight pol-
- clear transperant color. hight glows.

FOR ANY TYPE OF LAMPS. LED/CCFL or UV lamp - 2 min.

COMPOSITE GEL

Special gel for sealing the nail's free edge during nail strengthening:

- · extremely firm and solid, prevents peeling of the free edges for 3-4 weeks
- · high viscosity, allows to easily seal the face of a nail and repair damaged or chipped corners without having to use nail forms.

LED/CCFL lamp - 1 min. UV lamp - 2 min.

NATURAL COMPOSITE GEL

Multifunctional 2 in 1 sculpting gel for sculpting on forms and sealing/repairing:

- provides reliable protection against peeling of the free edges high viscosity allows to easily seal nail faces and restore chipped corners
- does not leak from a form, allowing you to work on 4 or 5 fingers simultaneously, holds the arched shape perfectly
- comes in a natural beige shade.

LED/CCFL lamp - 1 min, UV lamp - 2 min.

SOFT PINK JELLY GEL

Camouflage jelly for gel French manicure

- great camouflaging propertiers, easily conceals imperfections. smooths out the colour transition, does not leave a visible edge when
- growing out, soft when filina: high viscosity, suitable for laying the artifical layer using a single drop on several
- nails simultaneously; suitable for layered techniques of French manicure and for general sculpting. LED/CCFL lamp - 1 min

UV lamp - 2 min.

FORM GEL NATURAL

Sculpting gel for resotartion and extension of free edges and for natural-looking sculpting

- elastic and flexible, easy
- maintains the desired shape after polymerization perfectly; 100 % self-sculpting, re-
- the beige colour matches
- the natural colour of the nails LED/CCFL lamp

1 min, UV lamp -2 min.

FORM GEL CLEAR

Transparent sculpting gel for sculpting using nail forms: · elastic and flexible, easy to use;

- maintains the desired shape after polymerization perfectly;
- 100 % self-sculpting, requires
- clear, transparent colour;
- · the best material for creating a «crystal manicure» and «aguarium» designs on the free

edge. LED/CCFL lamp -1 min, UV lamp - 2 min.

FORM GEL ULTRA WHITE

Ultra white gel for creating French manicure using nail forms.

- · bright white colour for a flawless French manicure:
- good viscosity the gel does not spread or leak over the nail forms when working:

LED/CCFL lamp - 1 min. UV lamp - 2 min.

TOP GEL

Top gel without a sticky layer is applied in traditional systems of artificial nails as a transitional layer between different sculpting phases.

BRILLIANT FINISH GEL BRILLIANT FINISH GEL

Protective finishing gel with residual tack:

- · flawless shine:
- · sets perfectly in just 1 minute under a lamp, doesn't rise above the nail plate end.

doesn't sag. LED/CCFL lamp - 1 min, UV lamp - 2 min.

FINISH MATTE GEL

Protective finishing gel with matte effect: perfect for pattern design in combination with EMPASTA;

· dries quickly under a lamp, doesn't rise above the nail plate. LED/CCFL lamp - 1 min. UV lamp - 2 min.

ELABORATED IN FRANCE AT THE REQUEST OF E.MI

HYALURONIC ACID SERUM

30 ml

Salon expert product for keeping the hand skin young; adapted for home use

- INNOVATIVE, INTENSIVE, DEEP-ACTION FORMULA was created especially for the skin on hands.
- High-concentration HYALURONIC ACID quickly and deeply penetrates into the skin, leaving it much more lifted, instantly transforms the skin and slows the loss of elasticity.
- CENTELLA ASIATICA stimulates effectively the synthesis of collagen, intensifies the smoothness and glow of the skin, keeping its natural youth and beauty.
- LACTIC ACID gently whitens, evens out the skin tone.

SAYCOLIC ACID PRELIMBO SEPTIAL LIBBO SEPTIAL

ELABORATED IN FRANCE AT THE REQUEST OF E.MI

GLYCOLIC ACID PEELING

30 ml

- 20% GLYCOLIC ACID safely renews the top layer of the skin, stimulates blood circulation, increases skin firmness and tonicity, and reduces wrinkles:
- HYALURONIC ACID deeply moisturizes the skin, restores its elasticity, fights skin dryness and flaking, and removes fine wrinkles;
- · LACTIC ACID carefully whitens the skin and evens out the skin tone;
- · CITRIC ACID cleans and removes the dead skin cells, balances the skin pH;
- · MALIC ACID regenerates the damaged and weakened skin cells;
- · TARTARIC ACID stimulates production of collagen, improves skin firmness.

HYALURONIC ULTRA MOISTURE CREAM

50 ml

Salon expert product for keeping the hand skin young; adapted for home use

- HYALURONIC ACID deeply moisturizes and tightens the skin, restores its elasticity and removes wrinkles;
- GLUTATHIONE protects the skin against the harmful action of environmental effects;
- CENTELLA ASIATICA improves the blood microcirculation and metabolic processes of skin, favors the rapid cells renewal;
- MYRTUS EXTRACT effectively rejuvenates and strengthens the skin, restores its firmness, elasticity and tightness;
- · GRAPE SEED OIL has anti-inflammatory and antioxidant properties.

REGENERATING MASK

ANTI-AGING TREATMENT

Thanks to its unique formula, this mask shields the skin from the harmful effects of the environment, preserving its natural beauty:

- D-PANTHENOL easily penetrates the skin, stimulates cell divison and allows the skin to relax and regenerate, while also moisturizing it and leaving it soft and firm.
- CARBAMIDE (urea) improves permeability of the outermost layer of epidermis while moisturizing and softening the skin.
- ALLANTOIN speeds up the healing process of damaged tissue, including cracked skin. It has a strong calming effect, softening and smoothing the skin.

Gently cares for the skin thanks to its natural components:

- COCONUT SHELL MICROPARTICLES cleanse and smooth the skin efficiently, preparing it to receive active components.
- · SILK PROTEINS leave the skin soft, moisturized and radiant.
- \cdot CARBAMIDE (urea) improves skin nourishment, allowing for soft, moisturized skin. Silk Exfoliant is easy to use at home.

PARAFFIN EFFECT MASK. REVITALIZING TREATMENT

The mask's ingredients include a low melting point paraffin and essential and base oils:

- BUTIROSPERMUM PARKII (SHEA BUTTER) extract improves circulation and metabolic processes and protects the skin from the environment.
- · VITAMINS A AND E restore the natural balance and beauty of the skin.
- Paraffin Effect Mask requires no additional heating equipment; it can be used even during the hot season of the year. The mask remains hygienic, while the time spent on the procedure is reduced. The mask is suitable for those who cannot use the hot paraffin* treatment. Paraffin
- · Paraffin Effect Mask can be easily used at home.
- * Compared to the hot paraffin treatment, the Paraffin Effect Mask only has a short list of contraindications: self-tanning products, skin inflammation, infection, fungi, viruses, bacteria, scratches or abrasion on the skin.

CRYSTAL PEELING-MOUSSE

ULTRA-SMOOTHING ACTION: IT EVENS THE SKIN RELIEF AND COMPLEXION

Airy, melting texture

- SALT MICROCRYSTALS gently remove cellular debris, dull and dry skin cells, make your skin ultra smooth, soft and gorgeously glowing.
- APRICOT SEED POWDER massages and softens your skin, stimulates blood microcirculation and triggers cells regeneration processes. Evens the skin surface and enhances its complexion.
- SORBITOL ensures a natural deep hydration and helps your skin to keep its natural moisture balance.

Daily Casual

Boosts your mood and energy and keeps you sharp and active all day long

True Romance

Tenderness and lightness for romantic dreamers

Feel Freedom

A spirit of freedom for the decisive and confident

ULTRA MOISTURIZING LOTION, 200ML

For normal skin with tendency to dryness:

- Tender and weightless texture and an immediate effect. This lotion absorbs quickly, deeply nourishes the skin and leaves it moisturized and light.
- · Comes in a handy bottle with a pump!

ULTRA MOISTURIZING CREAM, 30ML

For dry skin:

 This fast-absorbing cream has a pleasant veil-like texture, deeply nourishes your skin and leaves it feeling moisturized for 24 hours.

EXTRA NOURISHING SOUFFLE CREAM, 50G AND 200G

Winter cream for very dry skin, suitable for all skin

types:

- Extra nourishing perfumed souffle cream with firm and airy texture.
- Penetrates deeply into the skin of your hands and body, creating a protective mask. Improves the skin elasticity, leaving it smooth and velvety to the touch.

Sweet Poison

Sensuous notes that will enhance your captivating and enchanting spirit.

First Lady

Charming and fresh, just like your iconic style

NAIL DESIGN STUDY MANUALS

100 step-by-step guides

NAIL SCULPTING STUDY MANUALS

Sealing of Natural Nails During Correction

This manual will teach you a technique

that will allow you to sculpt artificial nails on the natural frame of the nail plate: the resulting nails are narrow, thin, strong and have a natural look.

An illustrated, step by step tutorial gives you an opprtunity to try reproducing this technique by yourself.

MANICURE AND PEDICURE STUDY PROGRAMS

Manicure Technician

The elementary training representing the basis of the manicurist's skills. You will be able to start working in a beauty salon straight after completing the course. The course will teach you:

- · Traditional manicure (with cuticle trimming):
- · European manicure (with cuticle pushed back);
- Mixed manicure:
- · Male manicure
- · Manicure for children:
- · SPA-manicure;
- \cdot Paraffin therapy;
- · Hand massage:
- Traditional coating and French coating using gel polish and normal polish

The course covers:

- Study of skin and nail anatomy and physiology, study of dermal and nail diseases;
- Materiology
- Principles of disinfection and sterilization, Health Inspection Service requirements, business culture of and communication, modern technologies used in manicure.

Pedicure Technician

The elementary training representing the basis of the nail master's skills. You will be able to start working in a beauty salon straight after completing the course. The course will teach you:

- · Traditional pedicure (with cuticle trimming);
- · European pedicure (with cuticle pushed back);
- · Mixed pedicure;
- · SPA-pedicure;
- Paraffin therapy;
- · Ingrown nail correction;
- · Massage;
- Traditional coating and French coating using gel polish and normal polish.

ADVANCED COURSES

Modern Manicure Techniques

You will learn about the latest trends in manicure: modern traditional manicure, European manicure (with cuticle pushed back), mixed manicure, "hot", SPA-manicure, paraffin therapy, traditional and French coating, hardware manicure.

Improve your competitiveness by improving your skills!

3-10 days

Modern Pedicure Techniques

Experienced and highly qualified trainers will teach you: traditional pedicure (with cuticle trimmed), european pedicure (with cuticle pushed back), mixed pedicure, SPA-pedicure, paraffin therapy, ingrown nail correction, massage, traditional and French coating.

COMBI-Manicure with E.MiLac

Baby-Boomer Manicure

NAIL SCULPTING COURSES

Combi-Style: Strengthening Gel/Gel Polish

🥎 3 days, 5 days, 10 days

The course covers all techniques for nail strengthening, combining gel with gel polish. The course includes:

- · hardware and mixed manicure:
- nail strengthening using gel, gel polish, sealing;
- levelling out and sculpting using gel, WITHOUT FILING.
- · achieving perfect shine:
- · all types of E.MiLac coats applied "under" the cuticle: traditional, OMBRE, Lunar manicure, French, RUFFIAN.

The COMBI-STYLE is a personalised approach for every client - fast, tried and tested, with perfect results. No chips, cracks or peeling.

Beauty Salon Pipe

2 days

The architecture of competition nails amazes with the beauty and precision of their shape and their arch bend (40-50%). This course will teach you how to create such nails using salon scuplting techniques, while maintaining the maximum strength in the nails' stress zone and sides.

You will learn how to sculpt beautiful, graceful and strong nails of the traditional, square and elegant PIPE shapes.

Non-standard Sculpting Techniques

This course will teach you advanced, complex techniques of sculpting artificial nails into non-traditional shapes - Edge, Bridge and Modern. These nails have an uncommon shape and are very strong - a quality that modern women value highly. The sculpting is performed using the professional E.Mi Gel System.

Competitive modeling training

The training center carries out individual and group basic trainings on the competition manicure, nail extension and design.

The graduates are the multiple prize winners and winners of the regional and national championships. All the teachers are the participants and multiple prize winners, and the winners of the national championships (EXPO BEAUTY, NAIL EXPO, World Of Beauty).

Training on nail extension

Anyone can take this training after finishing any course on modeling or manicure.

This training is aimed to additional practice of all studied technologies: timing problem, quality of

service, material overspending. All materials and models are presented by the Training Centre.
